SCIENCE FAIR PROJECT:

Statement of the Problem How does the length of the blade on a windmill affect the voltage output?

Your question sound good. Go for it!

Review of Literature/Bibliography
(Post your document in the next column)

If I lengthen the blade on a windmill generator then it will generate more voltage.

Variables.

The independent variable: The length of the blade on the windmill generator

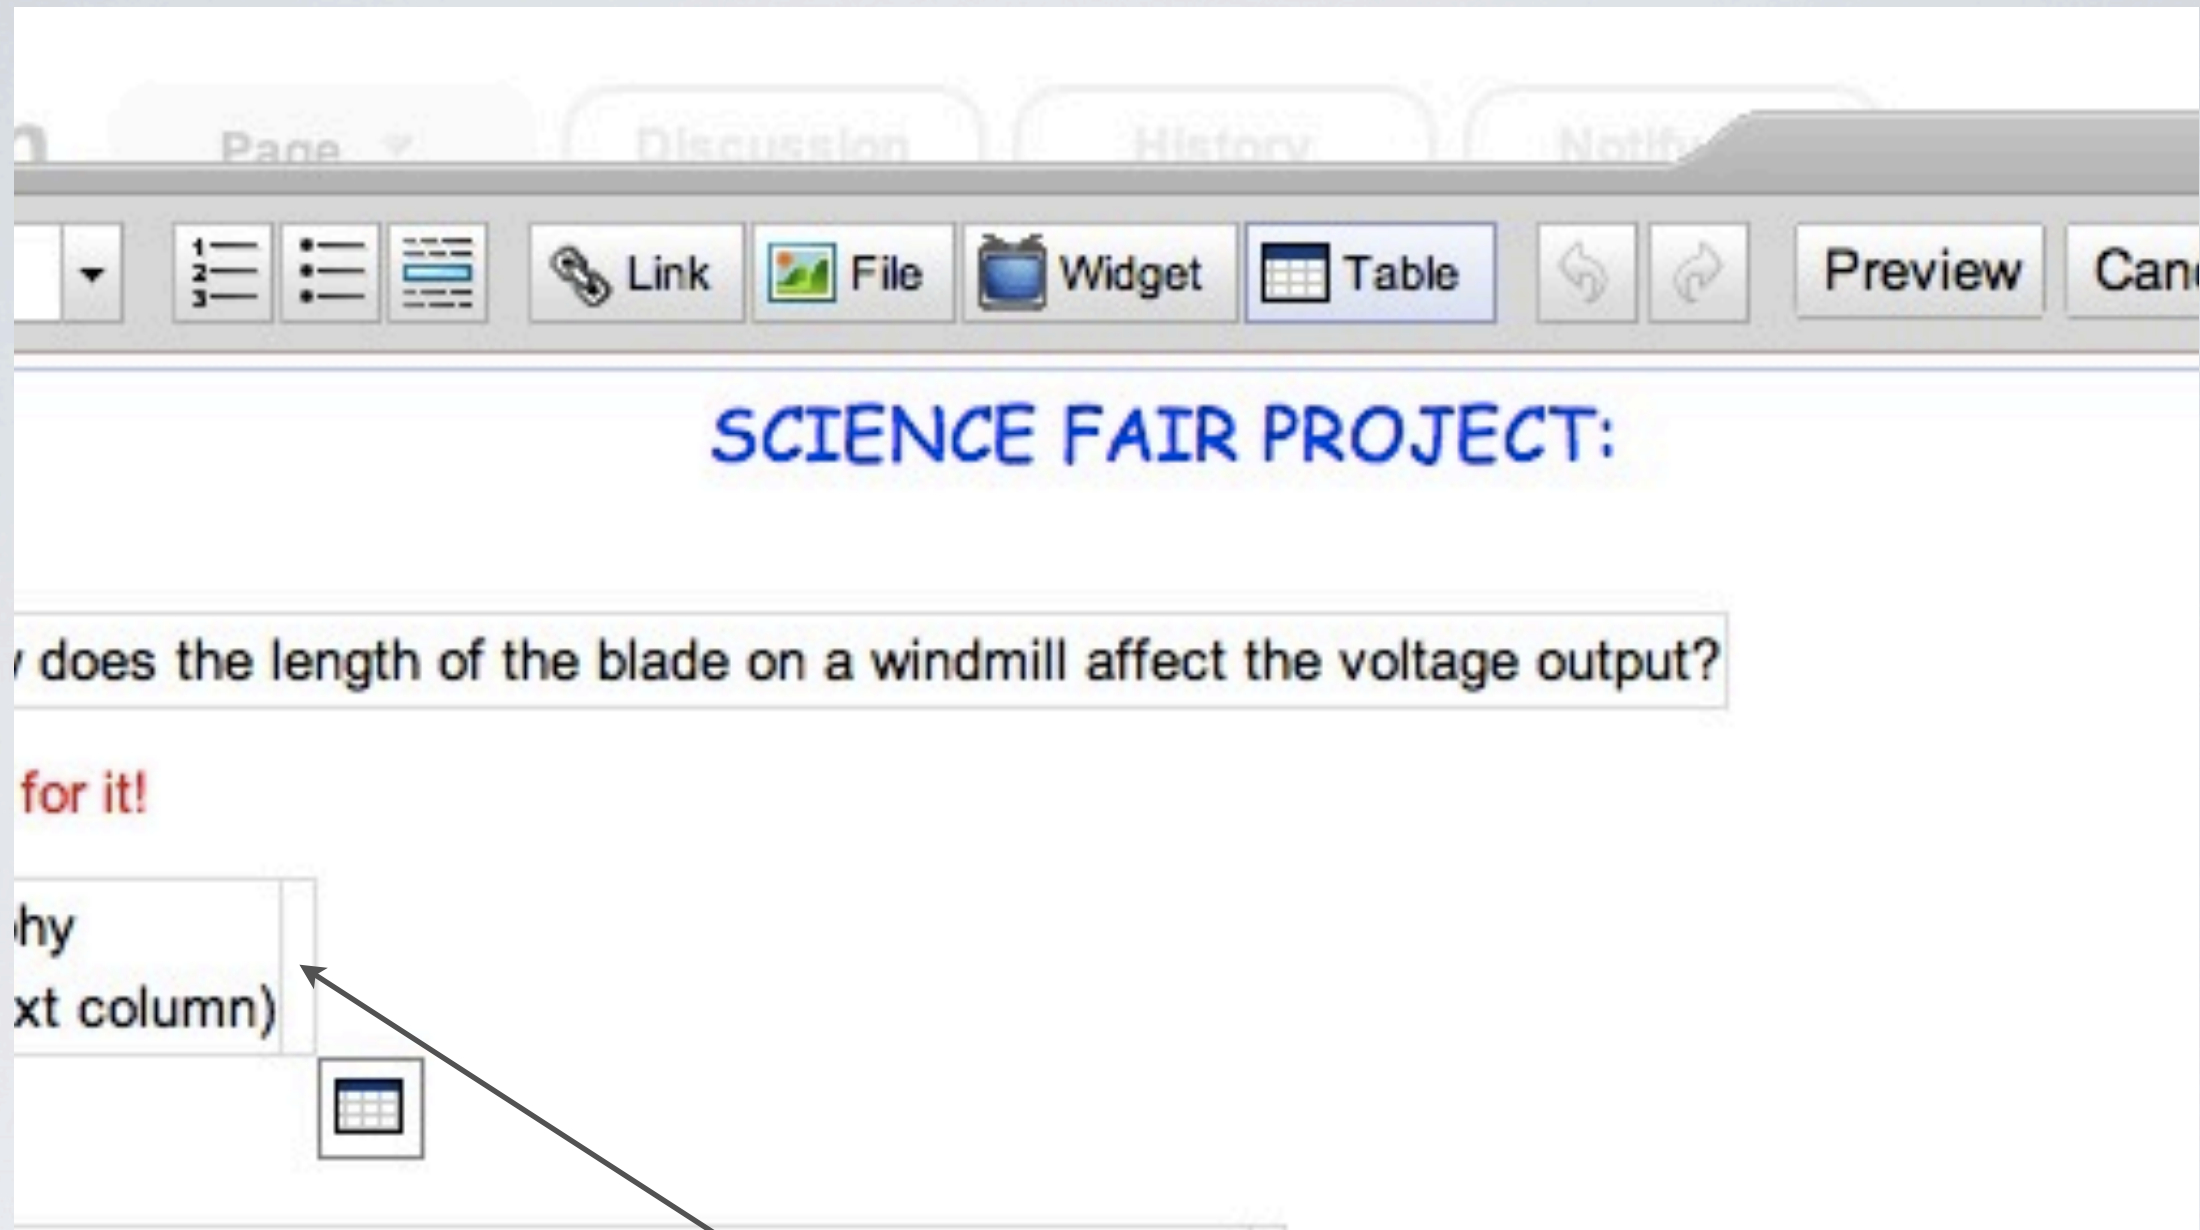

The dependent variable: The voltage output.

The constant variables. The windspeed.

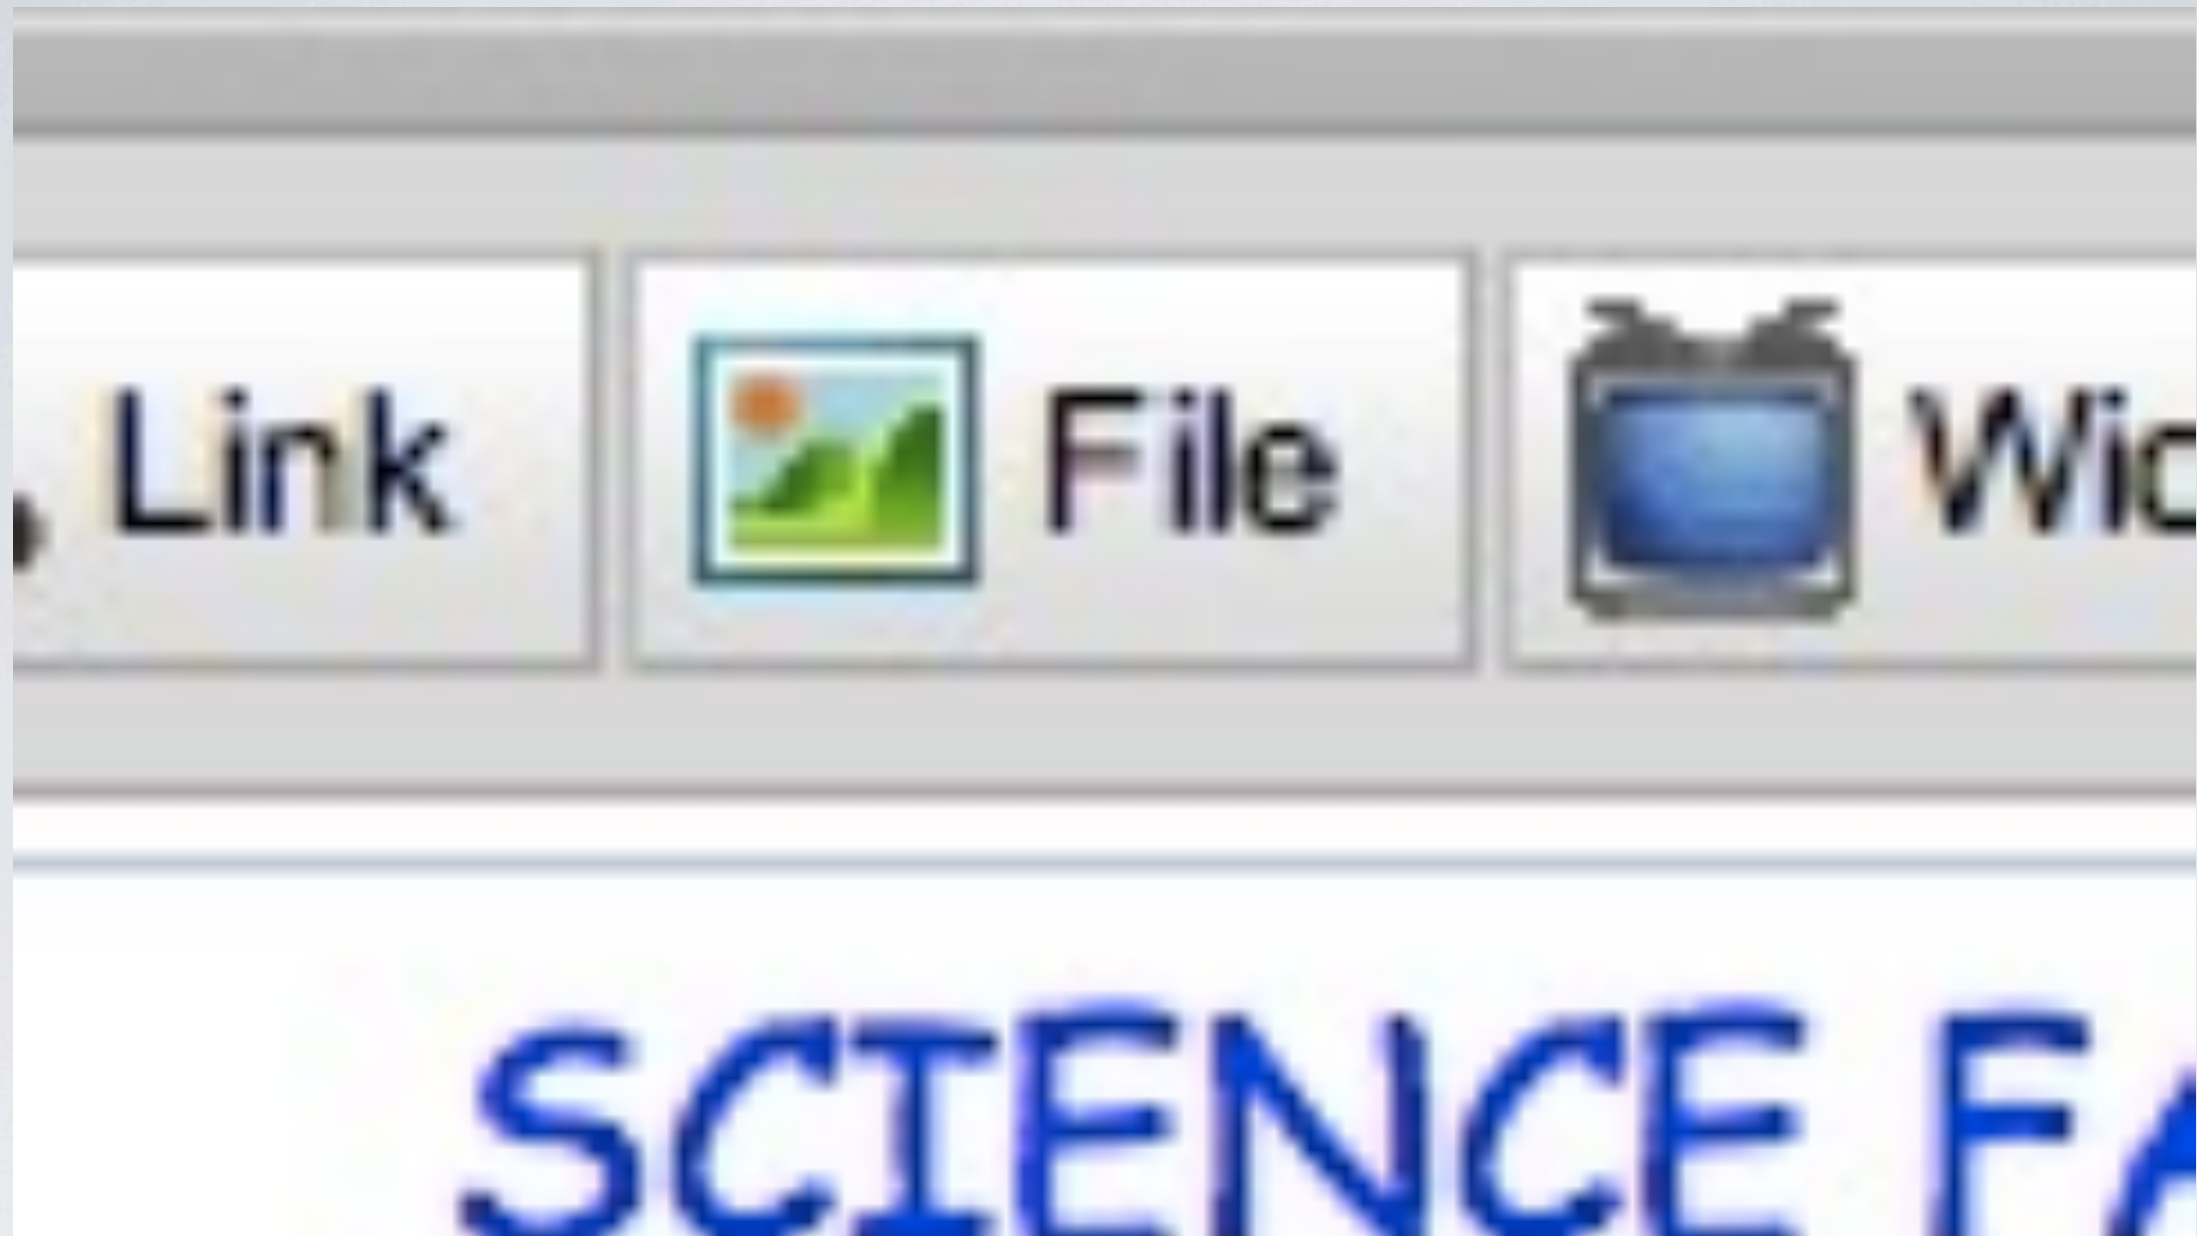

GO TO YOUR SCIENCE FAIR PROJECT PAGE

Click on EDIT in the upper right corner!

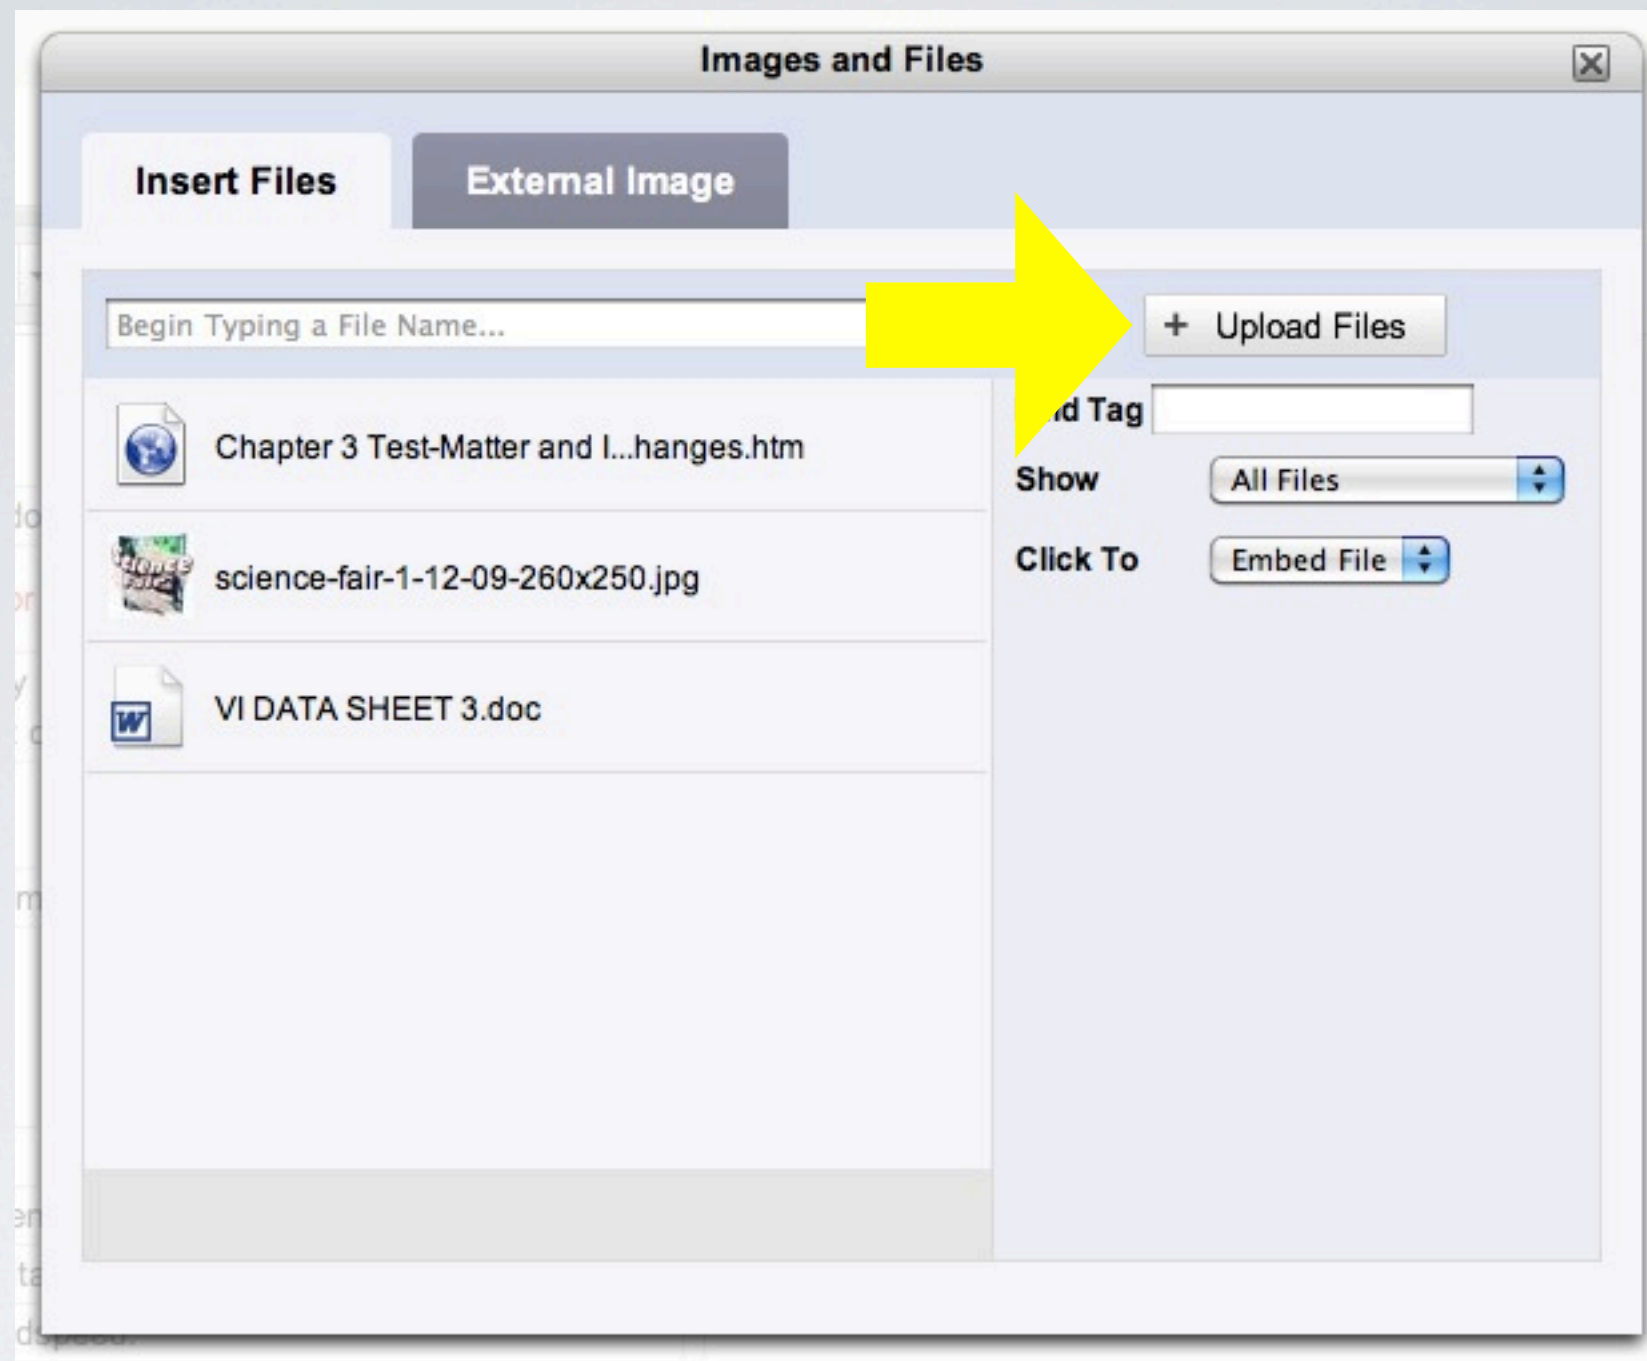

PLACE THE CURSOR

Be careful to place the cursor in the second column of the table made for your Response to Literature/Bibliography

CLICK THE FILE BUTTON

It's in the tool bar at the top. The icon looks like a framed picture.

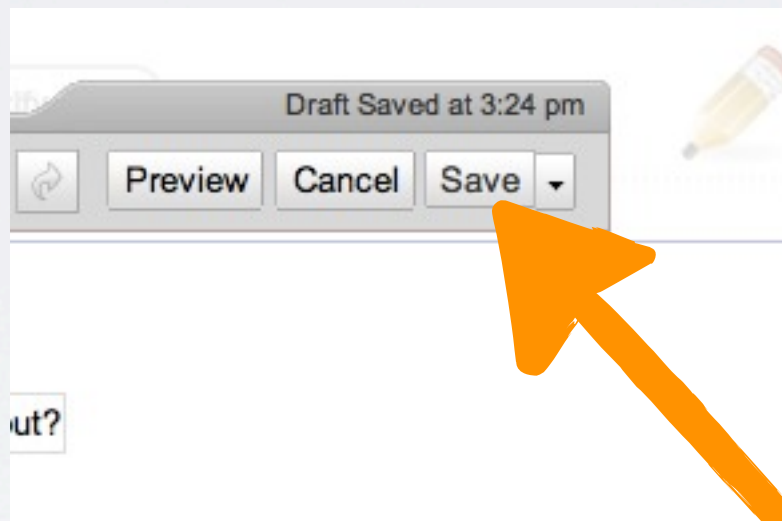

UPLOAD FILES

You'll get the box above! Click on **+ Upload Files!**

SELECTION WINDOW

- A window will come up so you can find your SAVED file/document.
- Select the document and open. This will upload the document.
- Be patient. It takes a few moments.
- When your document appears - DOUBLE CLICK on it.
- It should now be inserted where your cursor was!!!

SAVE

That's it!!!
